

# Agricultural Lands

# Rockingham, Vt. 2024 Town Plan

-  Primary agricultural soils
-  "LESA" Parcel
-  Parcel line, 1992 data
-  Railroad
-  River or pond

Data sources:

- Agricultural lands are based on a 1990 Agricultural Land Evaluation and Site Assessment (LESA) report which inventoried ninety-seven parcels, and Prime Agricultural lands from the Windham County Soil Survey, dated 1987.
- Parcel boundaries are taken from 1:5000-based AutoCad data developed by Russell Graphics, Corning, NY in 1992. The locations of these boundaries are approximate, and any errors in the data have not been corrected.
- Soils data was derived from the 1987 USDA Natural Resources Conservation Service County Soil Survey (VGIS data layer S0nnnnnnn). These soils qualify as Primary Agricultural Soils under Act 250. Soil boundaries were digitized from 1:20,000 orthophotos from the Windham County Soil Survey.

# Downtown District and Village Center Bellows Falls & Saxtons River Rockingham, Vt.

# Forestry & Wildlife Resources

# Rockingham, Vt. 2024 Town Plan

- Interstate highway
- Federal or state highway
- Class 1 town highway - paved
- Class 2 town highway - paved
- Class 3 town highway - paved
- Class 3 town highway - unpaved
- Class 4 town highway or legal trail (not all are shown on map)
- Railroad
- Private roads not shown
- Highest priority interior forest block
- Deeryards
- High Quality Woodland Soils
- Stream
- River or pond

- Listed, rare or uncommon animal
  - Listed, rare, or uncommon plant
  - Significant natural community
- (listed = federal or state-listed endangered or threatened)

Data sources:

- High productivity forest soils are those soils with a Forest Productivity Class of Site I. These classes are based on the productivity of the land for forestry. Each class includes a range of potential productivity per acre per year. Site I soils are the most productive at greater than >85 cubic feet per acre per year. Data for this came from VGIS soils data, digitized from 1:20,000 orthophotos as part of the Windham County Soil Survey.

- Natural Heritage data are from VT Dept. of Fish and Wildlife, Nongame and Natural Heritage Program's Natural Heritage Inventory Database. This includes data on Uncommon, Rare, Threatened and Endangered Species and Significant Natural Communities. Data current to spring 2023.

- Deer wintering areas are taken from the VGIS data layer DEERWN. They were delineated by VT ANR, Department of Fish and Wildlife onto 1:24000-1:25000 scale topographic maps. Digital data released in March 2022 were used.

- Highest priority interior forest blocks are from the Vermont Conservation Design by the Vermont Agency of Natural Resources.
