	Railroads		
	Village boundary		
	Parcel lines		

250 0 250 500 750 Feet
1:2,400 1 inch = 200 feet

Sources:
- Parcel boundaries are taken from tax map data created by Dibernardo Associates, Bellows Falls, Vt. in 2012. On small parcels or large scales, parcel boundaries and building locations do not line up particularly well.
- Surface waters were digitized from 1:5000 orthophotos.
- Data on streets and driveways were originally developed using MapMaker Photogrammetric Services, St. Albans, Vt. in 2002. These data have been edited by Windham Regional Commission in 2005.
- Data on building locations were originally developed using MapMaker Photogrammetric Services, St. Albans, Vt. in 2002. These data have been edited, updated, and attributed by Windham Regional Commission in 2005, with additional updates in 2012 and 2013. Building address information was provided by the Town of Rockingham, and building use information was derived from 1911 ESRI data.
